Idaho Science Olympiad Event Schedules
www.idahoscioly.org

As of September 2024, the final schedule of events for the April 26th, 2025 Idaho Science Olympiad has not been published. We hope to have a schedule ready before Thanksgiving. Once a schedule is published, we do everything in our power to not change the times as teams depend on the published times to assign events to team members. Locations or rooms may change, but not the times of individual events.

There are six event sessions running at the following times:

> 09:00 –0 9:45
> 10:00 – 10:45
> 11:00 – 11:45
> 12:00 – 12:45
> 13:00 – 13:45
> 14:00 – 14:45

The classroom events start on the hour and end 45 minutes afterwards. The 15 minute time between the end of one event and the start of the next event on the hour allows competitors to move between buildings if needed.

When designing an event schedule, we strive to follow the following guidelines:

> 1: Every classroom or lab event will have two back-to-back sessions.
> 2: Every build-it event will run all day.

Thus, an individual competitor can prepare for any two classroom events and be sure to avoid a time conflict. Additionally, any competitor can compete in one or more build-it events. So, even before an official schedule is published, an individual competitor can prepare for three events without the concern of time conflicts. Pairs of competitors (most events allow two competitors) will need to be concerned about conflicts but can still prepare for one classroom event and one or more build-it events without concern for a timing conflict.
