

Team registration rules for the 2026 Idaho Science Olympiad

www.idahoscioly.org

The National Science Olympiad website is:

www.soinc.org

On this site you will find many links to help your team prepare for the competition. We urge you to explore them all.

The important thing is to first download a copy of the rules for 2025. Note that the B division rules are for grades 6 -9 and the C division rules are for grades 9 – 12. Students in 9th grade have a choice of division in which they wish to compete. The rules can be found at:

<https://www.soinc.org/rules-2026>

While a school can have multiple teams, each team is limited to fifteen students and Division B teams are limited to five ninth graders while Division C teams are limited to seven twelfth graders. See:

<https://www.soinc.org/start-team/team-size-grade-levels>

Another useful link has the scoresheets that the event supervisors will use in the scoring of your events. These are worth studying.

<https://www.soinc.org/scoresheets>

You will also need to register one or more teams with your Idaho Science Olympiad. Complete a registration for and email it to:

idahosciolygc@gmail.com with copies to css.smith53@gmail.com

Photo releases and Team rosters are not required until competition day.

Schools will be invoices \$125.00 for each team registered prior to April 1st, 2026 and \$145.00 for each team registered after April 1st, 2026
